

NOTES & Terms For Main Material

1. The actual length of main material comes in 11 to 12 MTR length.
2. If 6 meter or any other specific size cut length required, then material Cutting is done by gas cutting. So, the end piece of length is little bit unequal due to gas cutting.
3. As material cutting is through gas cutting, there may be slight difference in total length because of material burning in gas cutting process.
So for 6 meter cut length size comes between 5.85meter to 6 meter
4. The order should be placed in even number as material slitting is done in 12 MTR length.
5. If you have to do third-party inspection or any other inspection, you have to do it before order Finalization and dispatch of material. Once material is loaded and invoice is made, we are not liable regarding technical specifications. Once order is booked, you are bound to buy it. So, if third-party inspection or any other inspection is required, you must inform us prior and complete the process for same in advance.
6. In Main material we deals in SAIL , JSPL , VIZAG , VSP , RINL. Whichever stock is available, that brand's material will be dispatched. If any Specific brand required then it will have to be informed in advance in written.
7. Booked order will not be cancel for any reason. If it is cancelled due to any major reason, you must have to pay the material loading charges, unloading charges and minimum transportation charges. And In case of when vehicle reached at your unloading placed order can't be cancel in any situation and in that case you must have to unload material anyhow and also you are bound to do outstanding payment if there is any.
